

# Process & Decision Documentation

## Project/Assignment Decisions

Name: Vrunda Popawala

Role(s): Editor

Primary responsibility for this work: Learning how to set up GitHub and Visual Studio Code

### *Goal of Work Session*

The goal was to set up GitHub and Visual Studio Code, understand how they work, change the background, and see whether commits can be seen and correctly linked between the two platforms.

### *GenAI Documentation*

No GenAI was used in this assignment
